

EXPERTS REVEAL...

SUPREME PRINCIPLES FOR SUCCESS FOR THOSE AT ALL FINANCIAL LEVELS

Are your listeners some of the millions of Americans living paycheck to paycheck? Are they faced with the threat of downsizing, insurmountable debt, and insufficient savings? In the midst of rising healthcare and education expenses, are they without a viable plan of action?

Everyday mailboxes are flooded with advertisements for “pre-approved” credit from companies that deplete Americans’ savings and draw them deeper into debt. According to the latest Survey of Consumer Finances conducted by the Federal Reserve, the rising level of debt may become “excessively burdensome to families.” Similarly, the American Bankruptcy Institute reports that personal bankruptcies are near an all time high; In 2004, more than 1.5 million were declared.

National Bestselling Co-Authors William R. Patterson, Vicky Therese Davis, and D. Marques Patton (PDP) deliver an eye-opening show designed to change the way Americans think about finance and debt obligations. They offer information to help listeners devise effective debt reduction, savings, and wealth acquisition plans.

Your guests will discuss:

- A 5-step action plan for financial independence
- How to succeed when in massive debt
- Methods to build wealth and retire early
- Tips to help avoid bad investments
- Strategies of sound money management and investing
